Informatik-Kolloquium

Rheinisch-Westfälische Technische Hochschule Aachen
Lehrstuhl für Informatik V

Einladung

Zeit:	Dienstag, 14. September 1999, 16.00 Uhr
Ort:	Raum AH1, Ahornstr. 55 (ehem. PH)
Referent:	Dr. Surya Sripada, Boeing Company, Seattle
Thema:	Information Management and Collaborative Technologies Research at Boeing

Abstract:

This talk gives an overview of research activities in the Information Management and Collaborative Technologies group at Boeing, Seattle, USA. The overall context of research in Boeing R&D is first described followed by an exposition of the different research issues being investigated in the areas of Information Management (Database, Data Warehousing, Agent and Information Access technologies) and
Collaborative Technologies. The main aim is to provide insights into interesting industrial research problems and to foster collaborative links between RWTH-Aachen and the Boeing company.

About the speaker:
Dr. Sripada is an Associate Technical Fellow and Manager of the Information Management and Collaborative Technologies group at Boeing M&CT, Seattle, USA.

Es laden ein: Die Dozenten der Informatik
